

## Plan Sponsor Notice: Data Collection Requirement for Your Prescription Drug Data Collection Reporting Submission

Prescription Drug Data Collection (RxDC) reporting for reference year 2023 is required to be submitted no later than 6/1/2024. This submission must include certain data elements that were not required for the initial submission.

As always, we are committed to complying with all legal and regulatory requirements affecting our business operations and our customer's health benefits. Therefore, Aetna has developed a process to support our plan sponsors in the submission of these reports.

**In 2024, Aetna will require the following data from all plan sponsors included in Aetna's D1 file:**

- **Total premium paid by members for the reference year**
- **Total premium paid by employer for the reference year**
- **Funding Arrangement**
- **Issuer Name/Legal Entity**

If a self-insured plan sponsor requests to be excluded from Aetna's D1 file, you do not need to complete this data collection process. Instead, contact your account representative to request an exception.

To learn more about the reporting requirements, refer to the [RxDC Reporting Instructions](#).

### **What you need to do:**

**Complete the fields provided in the emailed form no later than 4/12/2024.** If you have not received an email with the form, please contact your sales team for assistance.

- If any **plan sponsor** does not provide the requested data by 4/12, Aetna will submit the report without the required plan sponsor data. Failure to respond with complete and correct information will impact our ability to accurately report on the plan sponsor's behalf, and Aetna will not be responsible for any liability associated with the inaccurate report. It may be necessary for you to submit this information to CMS directly.

We're here to help! If you have any questions or want to discuss this process, please contact your sales team.

Be well!

Your Aetna Team
