Response to Anthem data request due March 19

Anthem employer groups recently received an email from Anthem requesting data needed to comply with the Prescription Drug Data Collection (RxDC) reporting requirement. To comply with the Consolidated Appropriations Act (CAA), passed in December 2021, insurance companies and employer-based plans must submit information regarding prescription and health care spending to the Centers for Medicare and Medicaid Services (CMS) by June 1 of each year.

The majority of the required RxDC data is maintained by the health insurance carrier, but not all. Plan sponsors need to provide data Anthem does not collect:

- average monthly percentage of member-paid premium for 2024,
- average monthly percentage of employer-paid premium for 2024,
- group name,
group/case number,
- employer EIN,
- Form 5500 plan number (3-digit number, often 501. If not applicable enter "N/A"), and
- group contact name and email.

Click [here](#) to access the Anthem data request.

Failure to complete the data request may require employers to submit information on their own or be subject to a CMS penalty of \$100 per day per affected individual.

If you haven't received the Anthem email notification, contact your Bukaty benefits consultant at 913.345.0440
