

SWIPE & GO

You generally don't think about your benefits until you need them. With the SWIPE benefits app, your benefit plan information is conveniently accessed from your phone whenever, wherever you need it.

Bukaty Companies developed this in-house capability because our 30 years' of experience has shown employee satisfaction increases when employees and their family members know how to access their plan information and secure care easily.

What SWIPE can do for you

- **Benefit plan summaries** – Medical, dental and vision summaries provide an easy-to-read format to review deductibles, office visit and prescription copays, coinsurance, and out-of-pocket limits.
- **Provider search** – You can search for an in-network provider from your phone with the assurance that information is accurate and up to date.
- **Document library** – Stop searching for forms. Required notices as well as evidence of insurability and claim forms are just a few of the items that can be accessed from the document library.
- **Service** – Your Bukaty service team is ready to assist with ID card requests, claims support and more. With one click you can connect with your designated service contact.
- **Telehealth** – Schedule a telehealth visit that fits your schedule and needs.
- **Online enrollment** - Can't find time to enroll in coverage or update personal information at work? No problem. SWIPE gives you direct access to your online enrollment platform to enroll in coverage, update dependent information and change coverage when experiencing a qualifying event.

DOWNLOAD SWIPE TO YOUR PHONE

For iPhone - Use the URL address specific to your company to access your benefits site. Tap the Share icon at the bottom center of your screen. Select "Add to Home Screen," then select "Add".

For Android - Use the URL address specific for your company to access your benefits site. Tap the 3 dots in the top right of your screen. Select the "Add to Home Screen" option," then select "Add".
